| May 14, 2003 9:30 am – 4:30 pm | California Public Utilities Commission 505 Van Ness Avenue, Hearing Room A (Corner of Van Ness Avenue and McAllister Street) San Francisco |

Energy Division will be conducting a workshop to take place in San Francisco on May 14, 2003, from 9:30 a.m. to 4:30 p.m. in conjunction with OII 03-03-018 and OIR 03-03-017 on mobile home park submetering discount.

Discussion will focus on identifying utility cost components incurred by the utilities in directly serving mobile home customers that are avoided when the mobile home park (MHP) is master metered. In addition, energy-related costs incurred by the MHP owner that are not covered by the MHP discount will be identified. Participating utilities should be prepared to present simplified diagrams of the utility facilities used to serve directly metered mobile home park customers, with the components clearly identified.

Representatives of the mobile home park owners should also present, wherever possible, similar diagrams for submetered systems.

Summary: On April 15, 2003, Schavrien raised the issue of the revised scoping memo and ruling and explained that they are contrary to the Commission's previous determinations, and they unfairly treat SoCalGas in a different manner than the other utilities. Schavrien also explained that there is no need for the Commission to violate the SB 960 18-month time limit here, because any award could be made subject to refund.

4/18/03 A01-03-036 San Diego Gas & Electric Company, for a Certificate of Public Convenience and Necessity for the Valley-Rainbow 500 kV Interconnect Project.

Summary: On April 15, 2003, Lee Schavrien, Vice President Regulatory Affairs, San Diego Gas & Electric Company (SDG&E), met with Kevin Coughlan, advisor to Cmmr. Peevey, in San Francisco. Also present was Leslie Katz, SDG&E Regional Vice President. Schavrien stated that new information filed in the PFM clearly demonstrates that a reliability deficit will materialize by 2004, within the arbitrary five-year planning horizon adopted in D02-12-066. Schavrien argued that the Commission should reopen the proceeding to allow continued examination of the project and evidence.

Summary: On April 15, 2003, James Scarff, counsel for the Office of Ratepayer Advocates (ORA), met with Belinda Gatti, advisor to Cmmr. Brown, in San Francisco. Also present was Scott Logan, Analyst for ORA. Scarff and Logan discussed San Diego Gas & Electric Company's (SDG&E) petition for modification of D02-12-066. Scarff stated that the alternatives initially proposed by SDG&E had with one exception been rendered irrelevant due to the acquisition of the Great Oak property in trust by the Pechanga tribe. Scarff noted that the new alternatives discussed in the summary analysis had not yet been subjected to scrutiny by the public or the parties. Scarff also said that the cost data used in the need hearings was now likely to be far too low for any Valley-Rainbow project since the route whose cost was estimated in the economic analyses is now no longer feasible. With regard to the Reliability-Must-Run (RMR) costs, Scarff pointed out that the 'evidence' SDG&E presented was nothing more than SDG&E's request to the Federal Energy Regulatory Commission (FERC) for a higher revenue requirement; it was not FERC final decision on what RMR costs are reasonable. Scarff also noted that the cost estimate referenced by SDG&E is for 2003 tariffs. Logan stated that it was inappropriate for the Commission to assume that RMR costs would remain the same from 2003 or necessarily increase from then until Valley-Rainbow became operational. Logan noted that everyone involved in this case wanted either Otay-Mesa or the Palomar Energy Center to be built, yet SDG&E seemed to be focusing all of its efforts on building this transmission project instead of encouraging new power plants. Logan noted that the California Energy Commission was considering the Otay-Mesa project as likely to be built. ORA argued that ALJ Cooke's draft decision denying SDG&E's petition for modification reached the correct conclusion and should be adopted.

I01-09-002 Order instituting investigation on the Commission's own motion to assess and revise the New Regulatory Framework for Pacific Bell and Verizon California Incorporated.

Summary: On April 15, 2003, Tim McCallion, President-Pacific Region, Verizon California Inc. (Verizon) met with Cmmr. Lynch and Cmmr. Kennedy in two separate meetings in San Francisco. At the meeting with Cmmr. Lynch also present was Tom Long, advisor to Cmmr. Lynch, and with Cmmr. Kennedy - Timothy Sullivan, advisor to Cmmr. Kennedy. Jenny Wong, Director-Regulatory Affairs for Verizon, participated in both meetings. Written materials (attached to the notice) were used. McCallion expressed disappointment with the proposed decision (PD). McCallion stated that although the evidence presented in the PD were all factual and supporting of Verizon's claim that its service quality has improved under NRF, the PD drew an erroneous conclusion that Verizon failed to provide high quality of service to its customers under NRF.

Also present was Leslie Katz, SDG&E Regional Vice President. Schavrien stated that SDG&E supports Cmmr. Peevey alternate, but that it should be modified to clarify that least-cost dispatch applies to all procurement activities. Schavrien noted that extending the disallowance cap does not limit the Commission's ability to disallow costs relating to 'gross incompetence, fraud, abuse, or similar grounds.

4/18/03 A02-06-024 Verizon California Inc.'s Petition for Arbitration of an Interconnection Agreement with Pac-West Telecomm, Inc. (U 5266-C) pursuant to Section 252(b) of the Telecommunications Act of 1996.

Summary: On April 15, 2003, Tim McCallion, President – Pacific Region, Verizon California Inc. (Verizon), met with Cmmr. Kennedy in San Francisco. Also present were Timothy Sullivan, advisor to Cmmr. Kennedy, and Jenny Wong, Director – Regulatory, for Verizon. Written materials (attached to the notice) were used. Wong indicated that Verizon supports the alternate put forth by Cmmr. Brown with respect to the Virtual NXX issue. However, Wong stated that the draft decision and the alternate erred on the issue of implementation date of the Federal Communications Commission (FCC) Remand Order on reciprocal compensation. Wong stated that it is Verizon's position that the FCC rates should be implemented on the first day after the last Interconnection Agreement expired.

4/21/03 A01-04-012 Pacific Gas and Electric Company's Conditional Application for a Certificate of Public Convenience and Necessity Authorizing the Construction of the Los Banos-Gates 500 kV Transmission Project.

Summary: On April 18, 2003, James Scarff, counsel for the Office of Ratepayer Advocates (ORA), met with Kevin Coughlan, advisor to Pres. Peevey, in San Francisco. Scarff commented on Cmmr. Lynch's alternate. Scarff stated that if the Commission needs to allow this project to go ahead, there is a better way to get there than the approach used in the alternate. Scarff stated that the rationale of saying that the Commission cannot predict what the Federal Energy Regulatory Commission might do in the future regarding market power mitigation measures is true for all transmission projects. Scarff stated that if that rationale is relied on by the Commission in this case, it will be cited by others as justification for virtually any proposed transmission line. Scarff noted that the Path 15 upgrades were unique, particularly with respect to the Western Area Power Administration's (WAPA) involvement in the project. Scarff explained that any Commission approval of the Path 15 upgrades that was based on WAPA's unique role in this project would not create the broad policy precedent that is inherent in the alternate. Scarff concluded by noting that ORA supports ALJ Gottstein's proposed decision (PD) and that the PD correctly critiques as fatally flawed the methodology used by the California Independent System Operator in evaluating the economic benefits of the Path 15 upgrade.
